Online Edition ©2008

## Copyright Notice

Copyright protects the contents and layout of the Connoisseur Catalogue. Permission is hereby given for material in this catalogue to be used privately by philatelists in describing and writing up their collections. It is also extended to be quoted editorially in magazines and philatelic society publications, also by stamp dealers in advertisements and price lists, provided that acknowledgement of the source is given. Where catalogue numbers are quoted, they must be used in full and unadapted and the source must be acknowledged in the advertisement or list.

Publishers of books, catalogues, albums and all other publications, must obtain written consent to quotation or reproduction of parts of this work in any form or by any means, electronic, mechanical or otherwise from B.Alan (Stamps) Ltd. (*2 Pinewood Avenue, Sevenoaks, Kent, TN14 5AF, UK*) in all other instances. This copyright covers all diagrams used in this work. The copyright for stamp images, panes and parts thereof is vested in The Post Office and remains their property at all times.

## Acknowledgments

The publishers are most grateful to Douglas G. A. Myall (2 Elizabeth Avenue, Bridport, Dorset, DT6 5BA) for his help and continued agreement of the use of his Deegam system copyright material for: (a) the Machin Head Type designations; (b) cross-references to his Type numbers in descriptions of value settings; (c) the S series for coding of short phosphor bands, the I series for inset bands and the N series for notched bands; and (d) the universal coding system for sheet and cylinder block perforation types.

We also acknowledge the use, with permission, of copyright material of the Modern British Philatelic Circle (Membership Secretary – A.J. Wilkins, 3 Buttermere Close, Brierley Hill, West Midlands, DY5 3SD) covering: (a) the DB system for numbering decimal stamp booklets with the exception of ‘window’ stamp booklets; (b) the DP & SP numbering systems for all decimal booklet panes; (c) the perforation coding system for decimal booklet panes; and (d) the Type numbering system for ‘window’ stamp booklets.

## SECTION 9

### Regional Stamps (Harrison)

Isle of Man

Northern Ireland

Scotland

Wales

The same design is common to all values of each region.

Regional stamps switched to using the Machin head on decimalisation, with designs by Jeffery Matthews. Each region's stamps have the same layout, incorporating a distinguishing emblem in the top left-hand corner.

These stamps are for use in the regions concerned, replacing national definitives of the same value. They are also valid throughout the United Kingdom with the exception of the Channel Islands and (since 5 July 1973) the Isle of Man, following their postal independence.

Regional stamps by Harrisons were issued only in sheet form; the contents of so-called 'regional sachets' come from broken-down sheets. The regionals have been termed 'country stamps' by the Post Office since January 1974.

**Types and Settings.** Although more than one Head Type is known (of smaller size than the national series) we do not list these, as in no case is more than one type to be found on a given value.

**Phosphor screens.** Phosphor bands are printed with 150 screen, except for the 3p 2B, 5½p 2B and the 8p, all of which are 250.

**Jet phosphor.** The contaminated 'jet phosphor' (see General Introductory Notes) is known on four regionals, and these are now included in the listing.

**Printers.** Until 1981 photogravure-printed by Harrisons, the regionals have since then been lithographed by Questa and Waddington (Section 10).
